1. Core Competency

The trial consultants at Suann Ingle Associates help attorneys prepare a visual trial strategy for litigation clients by integrating the principles of graphic design, witness preparation, jury research and analysis, and interactive presentation technology. We create thematic and persuasive graphic images and ideas for litigation and trials that succeed on multiple levels: intellectually, emotionally, and memorably.

More than just graphics, we work side-by-side with outside counsel to anticipate decisive moments in litigation and prepare efficient and productive strategies for cost-effective dispute resolution. Our on-site trial consultants are able to integrate mock jury research and cutting edge trial techniques to develop sophisticated visual communications while operating presentation software in trials and arbitrations.

We focus on the efficient resolution of high-stakes cases throughout the litigation process.

2. Client Driven Value

Clients are excited to work with us because we relentlessly drive toward excellence, elevating all of the messaging associated with hearings, settlement and mediation conferences, arbitrations, and trials.

We go the extra mile that drives positive outcomes because we provide superior client service while offering alternative billing arrangements. We assemble and scale teams to meet client needs without sacrificing quality or service.

Clients trust us because we work at the highest level of dedication and integrity. We thrive in a fast-paced and demanding work environment, keeping the corporate client end goals in mind.
